PROFILE

Information Technology undergraduate with hands-on experience developing AI-powered analytics platforms, interactive dashboards, and full-stack applications. Skilled in Python, SQL, data visualization, and machine learning, with strong interest in transforming data into actionable business insights. Seeking Data Analytics, Business Analytics, or Product Analytics internship opportunities.

EDUCATION

Manipal University Jaipur <i>B.Tech in Information Technology, CGPA: 7.66</i> Relevant Coursework: Data Structures, Algorithms, Machine Learning, AI, Databases, Networking	Jaipur, India 2022 – 2026
---	------------------------------

TECHNICAL SKILLS

Programming	Python, SQL, JavaScript, Bash
Data Analytics	Excel (Advanced), Power BI, Pandas, NumPy
Visualization	Plotly, Streamlit, Matplotlib
Machine Learning	Scikit-learn, TensorFlow, Keras, SHAP, NLTK, spaCy
Databases	PostgreSQL, MySQL, MongoDB, SQLite
Developer Tools	Git, Docker, AWS, GCP
Core Concepts	Con-Statistics, Business Analytics, Data Storytelling, A/B Testing, KPI Reporting

PROJECTS

JobShield AI <i>Fraud Detection & Analytics Platform</i> - Developed enterprise fraud intelligence platform integrating ML classification, NLP, SHAP explainability, and network intelligence to assess job credibility. - Designed end-to-end analytics pipeline with predictive fraud detection, trust scoring, and interactive dashboards; built 3 dashboards for fraud trends, company risk, and network visualization. - Implemented SHAP for model interpretability and stakeholder transparency. Tech: Python, Scikit-learn, Streamlit, Plotly, NetworkX, SHAP	
GramSeva <i>Governance Analytics Platform</i> - Built analytics layer tracking complaint resolution time, user engagement, and system performance; generated actionable insights for grievance redressal prioritization. - Developed shared dashboard with real-time visibility into complaint status, trends, and operational metrics; integrated multilingual AI chatbot (OpenAI API) supporting 5+ languages. Tech: React.js, Node.js, MongoDB, OpenAI API	

EXPERIENCE

OPM Corporation <i>Software Developer Intern</i> - Optimized data processing workflows and database queries to accelerate reporting, enabling faster delivery of business intelligence; developed reusable analytics components and data validation frameworks. - Prepared technical documentation, workflow diagrams, and process guides to improve onboarding and knowledge sharing across teams.	Remote 2025
Ridlin <i>Software Development Intern</i> - Built and optimized REST APIs for real-time data retrieval, collaborating with product teams to align with analytics requirements; performed root-cause analysis and resolved production issues. - Participated in sprint planning, code reviews, and cross-functional meetings, contributing to agile delivery of analytics-driven features.	Remote 2024

LEADERSHIP EXPERIENCE

LITMUS – Technical Event Coordinator - Coordinated inter-college tech events for 200+ attendees, managing schedules, participant communication, and on-ground logistics. - Facilitated collaboration between student teams, faculty, and judges; developed event timelines, resource plans, and post-event reports.	Manipal University Jaipur
